ABOUT MYSELF

I am a motivated and disciplined graduate with a Bachelor of Science in Computer Science and Engineering, supported by practical experience as an IT Officer. I have a strong foundation in computer systems, networking, and technical problem solving. I adapt quickly, enjoy learning, and consistently work to improve my skills. I am seeking opportunities to further develop my knowledge and contribute positively through academic and professional growth.

EDUCATION & TRAINING

[30/11/2012 - 30/11/2014]

Secondary School Certificate

Muslim Modern Academy <https://www.mmacademy.edu.bd/>

City: Dhaka | **Country:** Bangladesh | **Field(s) of study:** Science | **Final grade:** 5.00/5.00

[30/11/2014 - 30/11/2016]

Higher School Certificate

Adamjee Cantonment College <https://acc.edu.bd/>

City: Dhaka | **Country:** Bangladesh | **Field(s) of study:** Science | **Final grade:** 4.67/5.00

[07/04/2019 - 30/05/2023]

B.Sc. in Computer Science and Engineering

City University www.cityuniversity.ac.bd

City: Dhaka | **Country:** Bangladesh | **Final grade:** 2.73/4.00 | **Thesis:** IoT Based Air Quality Monitoring and Notification System

Relevant Coursework: Structured Programming Languages, Object Oriented Programming, Data Structures, Algorithms, Numerical Analysis, Discrete Mathematics, Database Management Systems, Data Communication, Operating Systems, Computer Networks, Computing Theory, Microprocessors, Microcontrollers and Assembly Language, Compiler Design, Systems Analysis and Design, Computer Architecture, Software Engineering, Artificial Intelligence, Computer Simulation and Modelling, Software Quality Assurance, Systems Programming, Web Database Programming, Advanced Enterprise Java, Internet and Internet Technologies, Digital Logic Design, Digital System Design and Statistics and Probability.

WORK EXPERIENCE

Nirjaas Group

City: Dhaka | **Country:** Bangladesh

[23/09/2023 - Current]

Information Technology Department (IT Officer)

Key Role :

- **Full Cycle Web Developer** Involved in frontend and back end development, website optimization, updates, and security monitoring.
- **Website Maintenance & Security Specialist** Managed regular site maintenance, resolved issues, and ensured security and performance.
- **Server & Hosting Management Support** Contributed to server configuration, hosting management, and smooth web operations.
- **Machine Learning & AI Assistant** Supported data preprocessing, model development, training, and deployment tasks.
- **Data Analyst** Performed data cleaning, interpretation, visualization, and prepared analytical reports for strategic decision making.
- **IT Infrastructure & System Support** Maintained IT systems, managed backups, ensured security, and handled network, hardware, and software troubleshooting.
- **Technical Support Officer** Provided technical assistance across departments and ensured smooth day to day IT operations

CodeAlpha

[01/08/2025 - 30/10/2025]

Machine Learning Internship (Online)

Completed four Machine Learning projects Built AI solutions for finance, healthcare, vision, and speech, including credit risk scoring, disease diagnosis, handwriting recognition, and emotion detection using Python and deep learning.

CodeAlpha

[01/05/2025 - 30/07/2025]

Data Science Internship (Online)

Completed four ML & data analysis projects Flower Classification, Unemployment Analysis, Car Price Prediction, and Sales Prediction gaining hands on experience in data cleaning, EDA, feature engineering, visualization, and model building / evaluation using Python.

Skills for PHP with Laravel Framework (BASIS SEIP Tranche 3 project)

City: Dhaka | Country: Bangladesh

[15/04/2023 - 27/06/2023]

Web developer

Object Oriented Programming, Web Application, Web Development and PHP using (OOP), Laravel Framework, Database Management System, Dynamic web application and website with laravel framework.

LANGUAGE SKILLS

Mother tongue(s): Bengali

Other language(s): English

SKILLS

Technical Skills

Machine Learning & Artificial Intelligence | Digital Image Processing | Internet of Things (IoT) | Network & Security Management | IT Infrastructure & System Administration

Programming Languages

Python | Machine Learning | Java | C++ | C

Web Development

HTML | CSS | Bootstrap | JavaScript | JSON | PHP | Laravel

Database Management

SQL | MySQL | MongoDB

Tools

GitHub | Phpstorm | Code Block | NetBeans | Proteus | Google Colab | Anaconda Navigator | Docker

Software

Operating System | Microsoft Office

Research Skills

Data Analysis & Interpretation | Literature Review & Technical Writing | Experimentation & Algorithm Development | Research Paper Writing & Publication

Soft Skills

Leadership & Team Management | Effective Communication | Problem Solving & Critical Thinking | Project Management & Strategic Planning | Adaptability & Time Management

PUBLICATIONS

[2024]

IoT Based Air Quality Monitoring and Notification System

Authors: Md Ataulah Bhuiyan & Md Sazzad Hossen & Mahir Labib Hossain | **Journal Name:** Journal of Networking and Communication Systems

RECOMMENDATIONS

Name: Md Ataullah Bhuiyan Associate Professor

I have know him for several years. He completed his thesis under my supervision and is also working on its publication in an international journal. I also instruct the Microprocessor and Assembly Language course, that is why I highly recommended him.

Phone number: +880 01843906686 | **Email:** mdataullahbhuiyan.cityuni@yahoo.com

Name: Md Aminul Islam Head of Information Technology Officer

I have known him for several years at Nirjaas Group. He is hardworking and technically skilled. I highly recommend him for higher studies abroad and am confident in his academic success.

Phone number: +880 01340109456 | **Email:** mdaminulislam531998@gmail.com

PROJECTS

- [08/05/2022 - 08/07/2023] **COVID-19 Information Management System**
The COVID-19 Information Management System efficiently manages pandemic data, including patient tracking, resource management, and data analysis. It ensures accurate information sharing to support better healthcare decisions and effective pandemic control.
- [12/05/2022 - 18/05/2022] **City University Project Showcasing 2021**
"Smart Campus Monitoring System" Designed and developed an IoT-based solution to monitor classroom occupancy, track energy usage, and enhance campus security in real time, aiming to improve operational efficiency and smart campus management.
- [07/02/2023 - 21/06/2023] **Empirical Assessment of Software Quality Assurance Performs and Challenges in a Development**
The study evaluates software quality assurance (SQA) practices and challenges using surveys and interviews with software professionals. It highlights best practices, common issues, and the importance of robust SQA for reliable and maintainable software.
- [06/01/2025 - Current] **Design Optimization Micro Strip Patch Antenna Blood Glucose Monitoring**
Designing and optimizing a microstrip patch antenna for blood glucose monitoring involves leveraging changes in blood permittivity to measure glucose levels non-invasively. The antenna operates at medical-specific frequencies, providing real-time glucose readings without blood samples. This technology aims to enhance diabetes management by offering a more convenient and efficient monitoring solution.

HONOURS AND AWARDS

- [27/03/2023] **PHP with Laravel Framework (BASIS SEIP Tranche 3 project) ADB Project** **Awarding institution:** BASIS Institute of Training and Management

[27/02/2024] **Improved Security Solutions with MTCNN and DenseNet Face Detection, receiving Poster Award disciplinary Research** Awarding institution: CDE Annual Conference 2024 Science and Development through Multi disciplinary Research

CERTIFICATIONS

Software Testing & Quality Assurance Career Path: City University

PHP with Laravel Framework (BASIS SEIP Tranche 3 project) ADB Project: (BITM)

English Communication Skills: BASIS Institute of Training and Management (BITM)

Introduction to Modern AI course: Cisco Networking Academy

Data Science Internship : CodeAlpha

SQL Intermediate: SoloLearn

Machine Learning Internship : CodeAlpha

EXTRACURRICULAR ACTIVITIES

Improved Security Solutions with MTCNN and DenseNet Face Detection, receiving Poster Award disciplinary Research (Feb 2024)

- CDE Annual Conference 2024 Science and Development through Multi disciplinary Research

City University Programming Club

Programmer (Jul 2019-2023)

- Developed competitive programming solutions in C, C++ and Python
- Organized coding workshops for students, increasing club participation

Inter Batch and Others University Programming Contest City University Campus (Online) (Apr 2021)

- Achieved 18th position among teams, solving 5 algorithmic problems

Randon Science Club

Vice President (Feb 2021-2023)

- Assisted the President in managing and leading club activities and operations
- Coordinated meetings, workshops, and science-related events
- Supervised volunteers and ensured effective teamwork among members
- Helped plan and implement projects to promote science and technology awareness

Bangladesh Sea Scout

Scouting (Jan 2012-2019)

- Led community service projects, developing leadership and teamwork skills

ACC Science Club Member (Jan 2016-2017)

"I here hereby declare that the information provided above is accurate to the best of my knowledge"

Md Sazzad Hossen
